Editorial

We are material bodies and light Spirits seen as auras (light) and we are here on planet Earth: 1/ to learn to control our emotions, which come with the Spirit (and not to let the emotions control us) and 2/ overcome our ego, which comes from the survival instincts of the material body. Most of the people living on earth (~90%) are young Spirits. They are so happy to be in a material body, to be able to enjoy the taste of food and enjoy sex that they don't want to hear about anything else. Usually, they are selfish, have lower emotional sensitivity, and lower sensitivity to stress and drugs. The major frequency of their Spirit is 200 Hz [1].

Spiritual are the people who are aware that they are not only a material body, but a body and Spirit that comes from God. Spiritual people see themselves as God's creations and they feel connected not only to the Creator God, but also to all the people on planet Earth (seeing them as their brothers and sisters in Spirit) and to all creatures in the Universe, who are also God's creations. This connectedness and the fact that they pray everyday: "God, let be your will, not my will" makes the spiritual people less selfish.

Selfishness is a synonym of ego. The people without spiritual awareness, for whom the body (with its survival instincts) play essential role in their life, are more egotistic or selfish. Opposite to them, the Spiritual people accentuate more on their Spirit, which dominates over their bodies. Usually, the major frequency of their Spirit is higher than 200 Hz. Since emotions come with the Spirit, the more spiritual people are more emotional, which makes them more intuitively creative [2]. If so, the creative Spiritual people are the ones that move the development of our civilization ahead. However, being more emotional, the Spiritual people are also more sensitive to stress and drugs.

Everything material is a material body and light nonlinear electromagnetic field (NEMF) [3] called Spirit. The NEMF of our body has 7 energy levels. Our Spirit could also have 7 levels, but the fifth spiritual level is the highest possible on earth. Thus, our Spirits can have on earth energy levels: 8th, 9th, 10th, 11th, and 12th. They are seen on Kirlian photos as an energy ball on top of the head at growing height [4,5]. The Kirlian photos are taken in high frequency electric field, which multiply the photons of the aura, to make the photographing of the aura possible.

When Jesus was speaking about some people "being in the Kingdom of God", he meant people having the light crown (ball) on top of the head. Only people with spiritual levels 9th, 10th, 11th, and 12th have this light ball on top of the head and they are the people who are already in the Kingdom of God. It seems that we learn to overcome our selfishness or ego and we learn to control our emotions only at the last possible Spiritual level on earth- the 12th. How I came up with this conclusion?

At the crucifixion of Jesus, all 11 disciples let by their ego abandoned him trying to save their skin. The only person that was with Jesus to the last moment was John (the beloved), and Jesus entrusted to him his mother before to die on the cross. I am able to see the Spirits (the auras) with my Mind, which is God's gift. I see that Jesus had the highest possible spiritual level on earth (the 12th) with intensity 100%. I also see that the Spirit of his beloved disciple, John, was also level 12, but its intensity was 90%. This makes me think that only at the last possible spiritual level on earth, the 12th, the person does not have ego.

There are number of facts that make me believe that Jesus must have been with the Essenes. The Essenes were White Brotherhood following The Ways of God (loving,

forgiving, and helping others) and they had four levels of initiation. The brothers with third level of initiation were called “disciples” and Jesus had disciples. The brothers with highest fourth level of initiation were called “the Perfecti” because they can perfectly control their emotions. The most perfect of the Perfecti was called “the Lord” or “the Master”. Since Jesus’ “disciples” called him “the Lord” or “the Master”, probably Jesus and his mother belonged to the highest level of initiation of the White Brotherhood of the Essenes [6].

In the Bible in Act 9:1-3 it is written: “Meanwhile Saul, still breathing threats and murder against the disciples of the Lord, went to the Highest Priest and asked him for letters to the synagogues in Damascus, so that if he found any who belonged to the Way, men or women, he might bring them bound to Jerusalem. Therefore, the disciples of Jesus were followers of “the Way”, or “the Way of God”. And the “Way of God” was to love, forgive, and help others who are spiritual brothers. This was the basis of the teaching of Jesus and the basis of the teaching of the White Brotherhood of the Essenes [6].

The 13th and 14th spiritual levels can be achieved only in the Spiritual Realm in groups of Spirits with the same spiritual level. These are Spirits that don’t need to incarnate on Earth because they have learn everything that can be learn on Earth-to control their emotions and to learn to suppress their ego. However, they can volunteer to come to Earth to help the spiritual growth on Earth, especially during transition periods. They are called “Transcendental Spirits”. Such “Transcendental Spirit” was Jesus. He chose to come to earth in a material flesh body to teach the earth people to love, forgive, and help each other, which is the way to spiritually grow.

Why should we thrive to spiritually grow? What do we gain by becoming more spiritual? The more we love, forgive, and help others, the higher is the major frequency of our Spirit, which is NEMF. Valerie Hunt found that Spiritual people are prophetic when the major frequency of their Spirit (NEMF) (seen as aura) is between 400 Hz and 800 Hz [1]. Why are these Spiritual people prophetic? Prophetic means to be able to foresee the future and see the past, in other word it means to be able to make quantum jumps to the future and the past.

Since only Quantum Computers can make quantum jumps to the future or the past, the Spiritual people with prophetic abilities obviously have access to their Quantum Computer in the Subconscious, which works with the waves of the Spirit [7]. This Quantum Computer is the most precious gift of God and to be able to use it is a great advantage. The ability of the Spiritual people to see the future will allow them to see the outcome of whatever activity they undertake,

which will guarantee them success in each new endeavor. As you can see, it is worth thriving to grow spiritually. We can continue in other articles the discussion on other benefits of the spiritual growth.

Where the users of narcotic drugs belong in this picture? They fool themselves that they are getting spiritually high with doing narcotic drugs, but my measurement of their NEMF (Spirit) [8] showed that they couldn’t be more wrong. After the use of narcotic drugs their NEMF (Spirit) is only 20% intensity - it is almost not there. Since our emotions come with the Spirit, the weak Spirit of the drug-users measured after use of narcotic drugs means that the narcotic drugs make them much less emotional and this is what they like.

MRI pictures of the brain of addictive personalities show darkness in the middle of the brain, where the emotional brain is. This darkness means suppressed brain activity, which only dominant negative emotions and negative thinking can bring. Instead of working toward changing their way of thinking to positive, which will lighten their brain and eliminate the darkness, they chose to use exciting hallucinogenic drugs or alcohol to excite their brains darkened by dominant negative thinking.

This makes the narcotic-drug users escapist from their main reason to be on Earth-to learn to control their emotions. They will keep coming to earth if necessary thousands of times until they learn to control their emotions without escaping from the task with narcotic drugs.
